

- What do I want to learn or understand better?

I would like to understand the different specific parts of the agile workflow a little bit better. I think I understand the overall concept and most parts that has been gone through, but how to work with them is something I would like to be better at.

- How can I help someone else, or the entire team, to learn something new?

I think that by having an open mind and trying to use the knowledge taught in the course in a productive way. Reflecting on what is and where we want to go and making a plan to get there.

- What is my contribution towards the team's use of Scrum?

Right now we haven't really started using Scrum, but I suppose I would like my main contribution to be a good member of the team and effectively use the concepts we learn.

- What is my contribution towards the team's deliveries?

As of now we have mostly gotten to know each other and started to get a feel of the group dynamic, so I have focused on getting to know the group.
